Inside The Industry

Market Trends And Notable Transactions

Key Industry Trends

- 1 2020 donation growth is TBD due to COVID-induced economic weakness counterbalanced by a generosity uptick - GivingTuesday results show generosity prevailing (slide 5)
- 2 Analytics remains a key focus in the nonprofit technology ecosystem, with a focus on building complete donor profiles to drive improved engagement (slide 6)
- 3 Following aggressive roll-up efforts by Ministry Brands in the church software market, challengers are emerging through their own M&A and product initiatives (slide 7)
- 4 Nonprofit fundraising agencies continue to complement their core services with software to enhance competitiveness and demonstrate ROI for their clients (slide 8)
- 5 In light of recent data breaches, software vendors and customers are leaning into enterprise-grade functionality & security standards (slide 9)
- 6 The corporate social responsibility (CSR) market is gaining steam as corporates and employees continue to focus on social well-being and community engagement (slide 10)
- 7 New nonprofit and association focused payment technology providers are emerging with the help of fresh private equity capital (slide 11)
- 8 *MPG Perspective:* Although disjointed expectations led to a dearth in deal activity in 2019/2020, we are seeing a resurgence in appetite for the sector

The State Of Giving

GivingTuesday May Be Indicative Of Strong Donation Growth Despite COVID Shake Up

MADISON PARK GROUP

U.S. Charitable Giving (Giving USA and Indiana University, \$ in billions of current dollars)

Sources: Giving USA 2020 Report, Marts & Lundy and Indiana University Philanthropy Outlook 2020 & 2021

- 2019 saw nearly \$450 billion in total U.S. giving due to a strong underlying economy and stock market performance
 - Wealthy individuals drove the increase (i.e. "dollars up, donors down")
- 2020E giving is counterbalanced by:
 - (i) Economic uncertainty caused by the COVID-19 pandemic
 - (ii) Outpouring of generosity and legislation (e.g., Universal Charitable Giving Act) in light of the pandemic and protests for social justice
- Generosity prevailed on December 1, 2020, as GivingTuesday saw an unprecedented level of giving
- Online giving continues to outgrow total giving, but still accounts for <10% of volume (most major gifts are not online)

GivingTuesday Trend (\$ in billions)

"It has been really inspiring to us. Despite hurricanes, social distancing, technological barriers, people have been more socially connected right now than ever before. It has shown us how together we are stronger."

Understanding The Donor

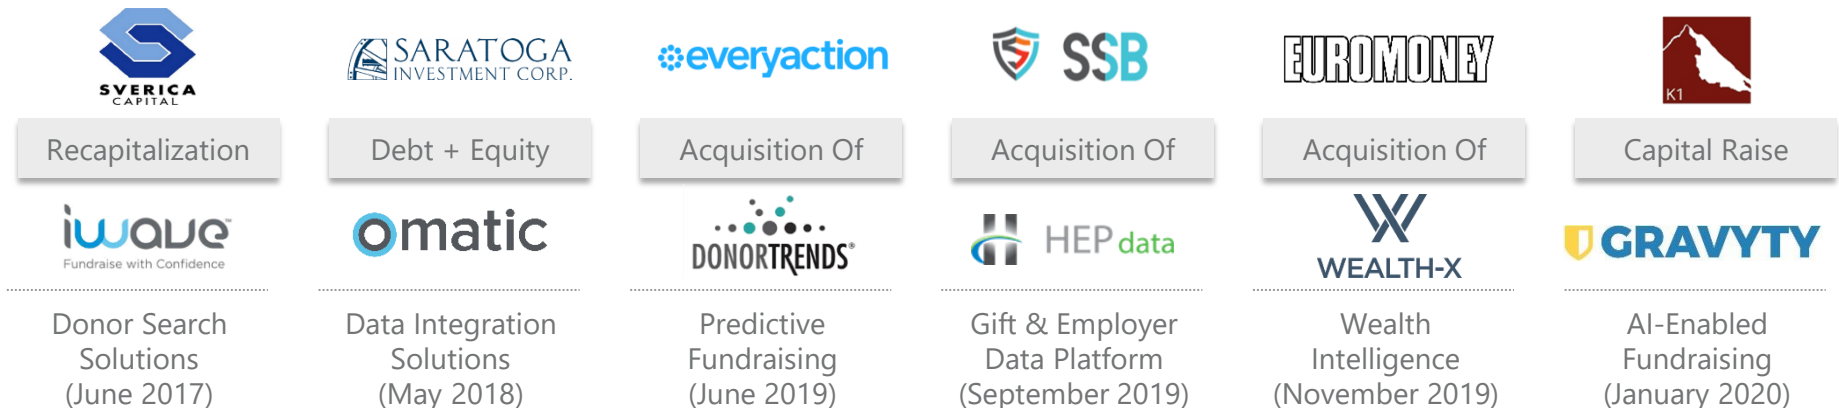

Vendors Continue To Incorporate Donor Data And Analytics

MADISON PARK GROUP

- Vendors continue to augment and differentiate their donor management and fundraising automation offerings through data & analytics solutions
- Augmented intelligence provides nonprofits with a holistic view of the end donor, allowing for more personalized and targeted engagement efforts
- Multiple private equity and strategic sale transactions in the space give credence to this subsegment of the nonprofit technology market
- Multiple data / analytics solution types, including wealth prospecting, integration platforms and predictive fundraising analytics

Nonprofit Data & Analytics Transaction Activity

Church Management Market Activity

Emerging Players Are Challenging The Ministry Brands Rollup

MADISON PARK GROUP

Ministry Brands has aggregated +30 brands primarily through an aggressive rollup strategy

Ministry Brands is backed by Insight Venture Partners and is part of the holding company Insight MB Holdings, LLC

MB Holdings, LLC also houses Community Brands, a separate technology provider for nonprofits, associations and K-12 schools

(2018)

(2016)

(2019)

SUBSPLASH

(2019)

streamspot

(2020)

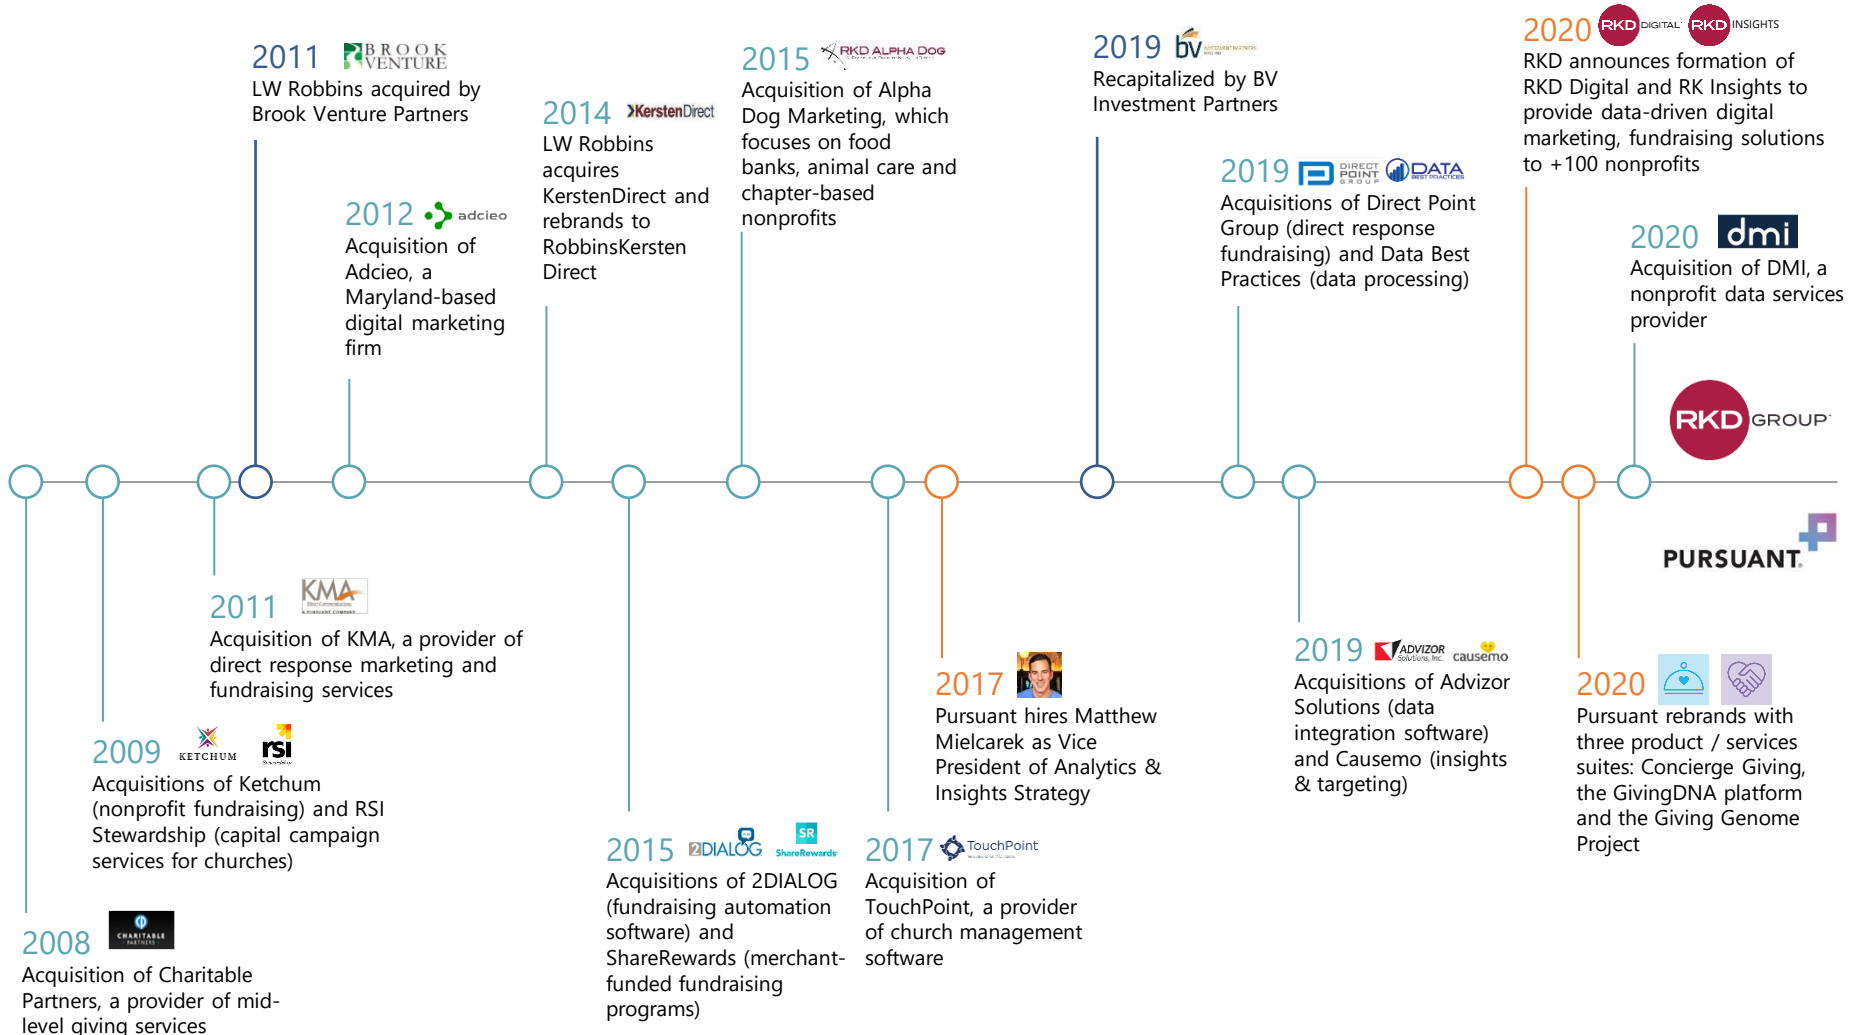

- Emerging players are encroaching on Ministry Brands through their own acquisition and product initiatives
- Select players are leveraging M&A as a market expansion tactic (e.g., Blackbaud) while others are acquiring competing & complementary church management capabilities (e.g., ACS, Pushpay, Subsplash)
- M&A strategies are informed by product capabilities (e.g., events, missions, analytics, volunteer management) and / or customer types (e.g., megachurches, medium / established, small denomination, archdioceses)
- SaaS continues to play an increasing role in the church technology ecosystem - Pushpay recently announced the release of ChurchStaq, an end-to-end SaaS solution spanning church management, donor / giving management and mobile apps

Ongoing Digital Transformation In Agencies

RKD Group (Top Of Slide) And Pursuant (Bottom Of Slide)

MADISON PARK GROUP

Through a series of PE transactions, acquisitions and corporate realignment initiatives, services-centric providers continue to incorporate digital transformation initiatives into their strategies

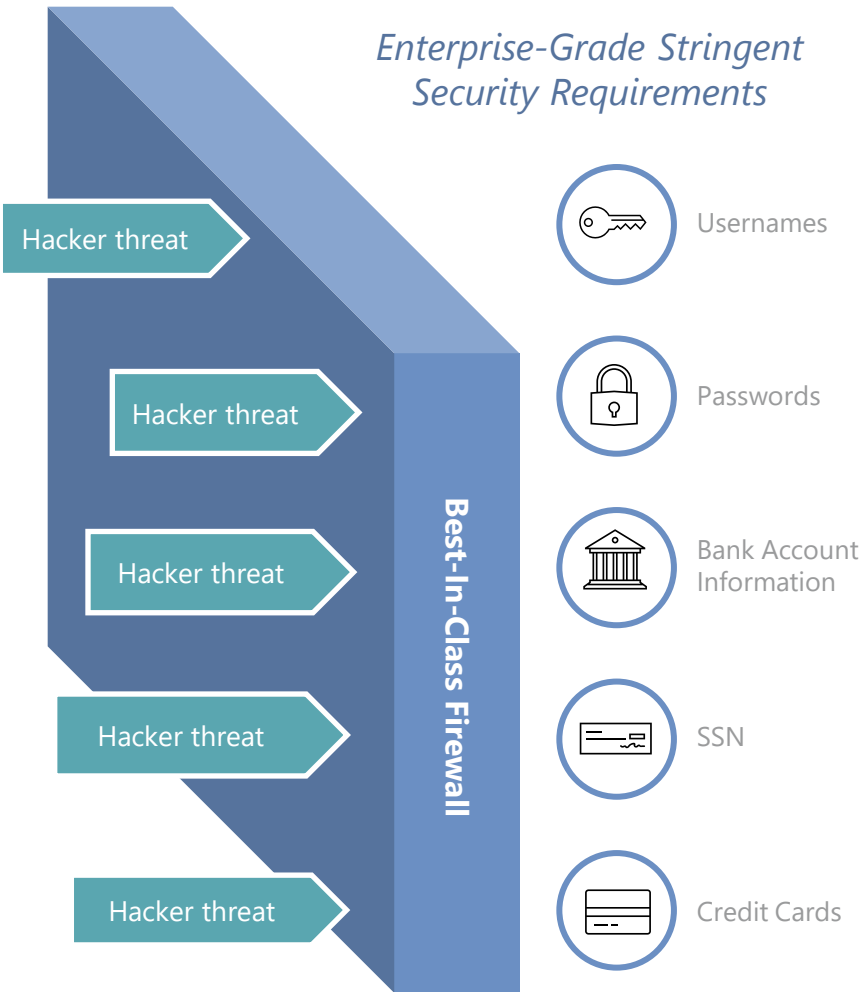

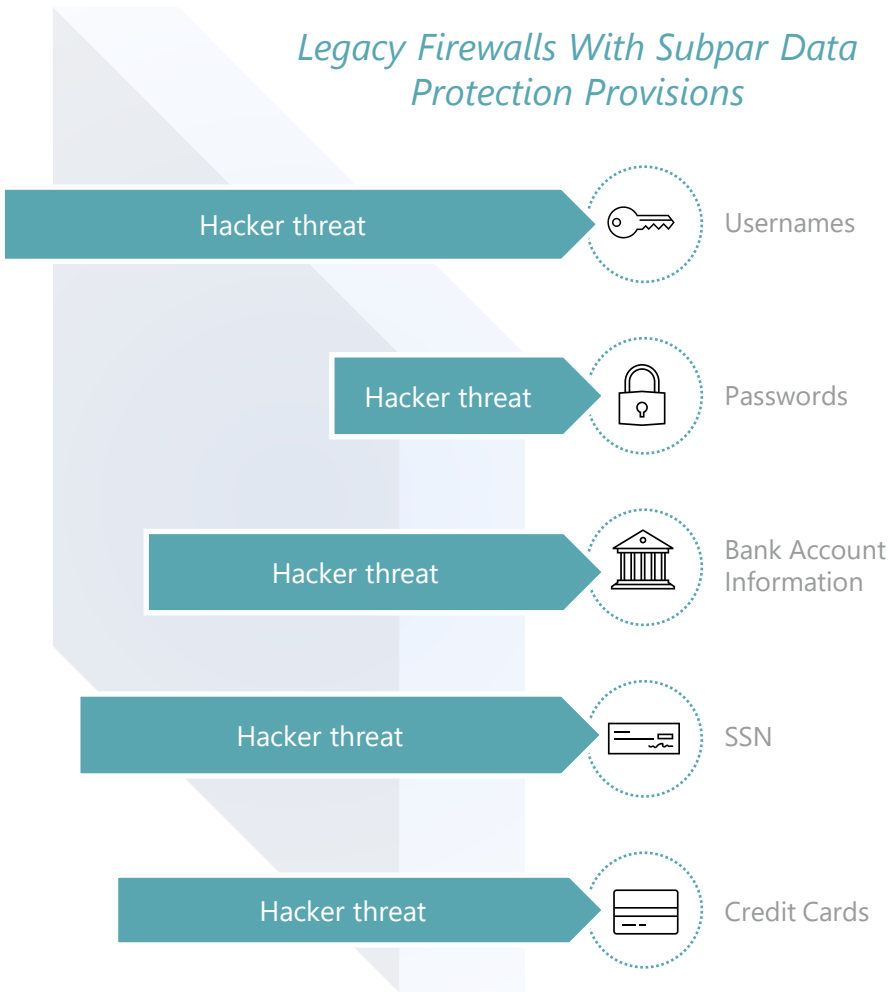

Migration To Enterprise-Grade Technology

Heightened Concern For Robust Security Measures

Donor profiles contain sensitive personal information which is the target of hackers and ransomware. From February-May 2020, hackers stole sensitive data from Blackbaud. Blackbaud was forced to pay a ransom to recover the stolen data.

Organizations are migrating to enterprise-grade technologies with best-in-class security capabilities. These new technologies provide robust fundraising & engagement capabilities as well as stringent firewalls for maximum donor protection.

Growth In CSR Activity

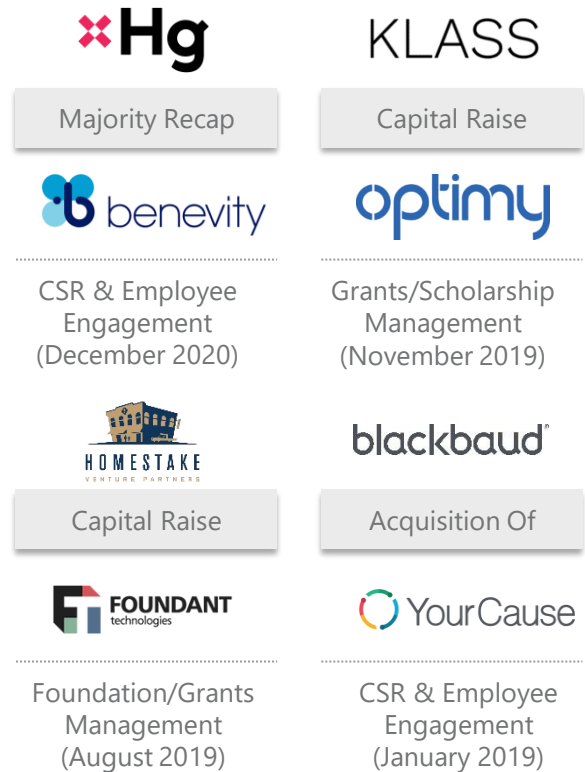

Corporations And Employees Are Increasingly Focused On Social Well-Being

MADISON PARK GROUP

U.S. Charitable Giving From Corporations (Giving USA, \$ in billions of current dollars)

Select CSR Transaction Activity

- Corporate giving grew 13.4% in CY2019 as corporations and employees continued to emphasize social well-being and catering to broader stakeholders in the community beyond just shareholders
- Corporate philanthropy is generally driven by profits and economic strength, which creates volatility in year to year giving; historically, corporates have donated up to 1.0% of pre-tax profits
- Companies are providing their employees greater flexibility in the organizations they support vs. the legacy model of deducting contributions from an employee's paycheck to support local non-profits
- Technology initiatives are supporting CSR growth; some companies are building in-house systems (e.g., Fidelity Investments) while others are partnering with technology vendors (e.g., United Way / Salesforce Philanthropy Cloud)

Payments Aggregators

New Players Are Emerging With Strong PE Backing

The Old Guard Of Payments Aggregators

Acquirer	Acquisition Count				Select Nonprofit / Association Software M&A
	2017	2018	2019	2020	
	9	5	2	1	 Donor Mgmt. (2017)  Tax Filing Services (2019)
	-	6	12	10	 Donor Mgmt. (2018)  AMS (2019)  AMS (2020)  AMS (2020)
	-	1	15	6	 NFP CRM (2018)  NFP CRM (2019)  Fundraising (2019)  Member Mgmt. (2019)  Member Mgmt. (2019)  Donor Mgmt. (2019)

- Three major payments aggregators (all of which are / were backed by Aquiline Capital Partners) decelerated M&A in 2020
- These platforms are not limited to the nonprofit / association segment, although Fullsteam has recently been active in the AMS market through the ACGI and StarChapter acquisitions

New Payments Entrants

TA Associates invests in AffiniPay in latest deal in payments

TA Associates has won an auction for the firm, which is expected to sell for 20x ebitda

Billhighway Acquires Impexium to Offer More Options to Member-Based Organizations

Impexium joins forces with Billhighway to super-charge member experiences and increase association ROI through focus on innovation, growth, and solution options that put the customer first.

Lovell Minnick Partners acquires Billhighway

14/10/2019 - 3:41PM

Lovell Minnick Partners, a private equity firm focused on investments in the global financial services industry, has completed the acquisition of Billhighway, a provider of integrated software and payments solutions to membership-based organisations (MBOs).

Qgiv, a Sphere Company, Announces Acquisition of Nonprofit Payment Processor, Acceptiva

The acquisition will give Acceptiva clients more digital fundraising options, including adding tools from Qgiv's fundraising suite.

- Meanwhile, the PE community is investing in new nonprofit / association-focused payments platforms
- Multiple platforms have already executed add-on acquisitions
- Mix of strategies: Payments acquiring into nonprofit / association software (e.g., Billhighway / Impexium) and vice versa (e.g., Qgiv / Acceptiva)

Fresh Capital Refuels Interest In M&A

» Investment And Strategy Review

- In [September 2020](#), ASI announced a \$35 million minority investment led by family office Brookside Equity Partners^(b)
 - Brookside's investment provided partial liquidity to Bregal Sagemount as well as growth and M&A capital
 - Brookside could have appetite to invest up to \$100 million to fund acquisitions^(b)
- In [October 2020](#), CEO Bob Alves conducted an interview with Washington Business Journal and commented on the transaction, company strategy and growth momentum:
 - The company has focused on transitioning to a cloud subscription model in the last few years with additional features to augment client acquisition and retention
 - Sales grew +40% despite COVID given (i) the company's focus on trade associations and less events-focused memberships and (ii) the company's cloud solutions which are suitable for remote workforces
 - The company is already evaluating M&A opportunities in conjunction with Brookside; Bob commented on ASI's M&A interests: *"There are a lot of companies in this space that have just run out of steam. These are lifestyle companies, and they are ready to sell. And we will be happy to buy them, too, because we can monetize it."*

» Market Penetration Through Partnerships

- In [May 2020](#), ASI announced a partnership with OpenWater, an application & review software provider, to launch "iMIS Inspire by OpenWater"
 - The solution streamlines applications for nonprofits and is fully integrated with iMIS
- In [March 2020](#), the company announced a deepening of its partnership with Clowder (association and mobile membership app) to offer "iMIS Mobile" for clients
 - The launch of the mobile application replaces one time use event apps, while providing a new line of communication to members
 - This launch is a progressive development built off the existing iMIS Cloud Engagement Management System (EMS), enabling ASI clients to better target youth engagement
