Market Drivers

Increasing Product Complexity Continues to Demand Improved Collaboration Capabilities and Specialized Engineering Knowledge

MADISON PARK GROUP

Select Identified Underlying Trends

- 1 Today's multi-disciplinary products require software tools specialized not just in specific engineering domains but across multi-physics systems
- 2 Rising adoption of low-code / no-code tools in industrial use-cases is increasing application flexibility and empowering more users within the organization
- 3 3D visualization applications are proliferating within both industrial (e.g., BIM, industrial AR / VR) and consumer-oriented (e.g., gaming, Metaverse) use-cases
- 4 Engineering tools specialized around physical infrastructure design are coming to the forefront amidst global initiatives towards sustainability
- 5 CAE applications are at an evolutionary inflection point with the increased calculation power of cloud computing and the predictive potential of AI / ML
- 6 Remote collaboration effected by the pandemic has accelerated the industry's shift, as well as industrial companies, to the cloud
- 7 The Digital Twin concept has expanded beyond the realm of products and single assets into major systems such as cities and the human body
- 8 The pandemic has driven large OEMs to look for ways to effectively collaborate with partners and suppliers on designs and quality management

Diverse Strategic Activity Complementing Milestone Investment Outcomes

MADISON PARK GROUP

Zemax

Strategic Sale

Ansys

January 2022

\$399m Valuation

- Supports Ansys' strategy towards acquiring domain-specific tools for its CAE portfolio
- Marks Ansys' third acquisition in recent years focused on adding capabilities in optical / photonic simulation

Supplyframe

Strategic Sale

SIEMENS

August 2021

\$700m Valuation (10x Rev)

- Marks continued strategic prioritization of electronics vertical following 2016's acquisition of global EDA leader Mentor Graphics
- Supplyframe's electronics supply chain data solutions adds value across Siemens' existing PLM, CAE, EDA, and manufacturing portfolio

upchain

Strategic Sale

AUTODESK

May 2021

\$139m Valuation

- Represents a significant investment into re-invigorating Autodesk's PLM business after years of relatively minimal activity

AUTOFORM
Forming Reality

Majority Investment

CARLYLE

October 2021

\$2b Valuation

- Global leader in sheet metal formation software, with massive footprint in automotive vertical, previously owned by PE firm Astorg Partners
- Marks one of the largest private equity buyout deals in the history of the engineering software market

Physna

Minority Growth Investment

TIGERGLOBAL

July 2021

\$460m Valuation

- Physna's technology searches, compares, and analyzes 3D models, creating engineering, industrial design and procurement processes for enterprises in a revolutionary self-serve way
- \$56m Series C round brings total funding to ~\$85m

aras

Majority Investment

GI PARTNERS

April 2021

Undisclosed Valuation

- New ownership focused on continuing to grow Aras' positioning in the PLM market as a low-code platform for industrial applications
- Following GI's investment, ex-PTC veteran Roque Martin assumed the role of CEO from Aras founder and long-time CEO Peter Schroer

Industry Trends

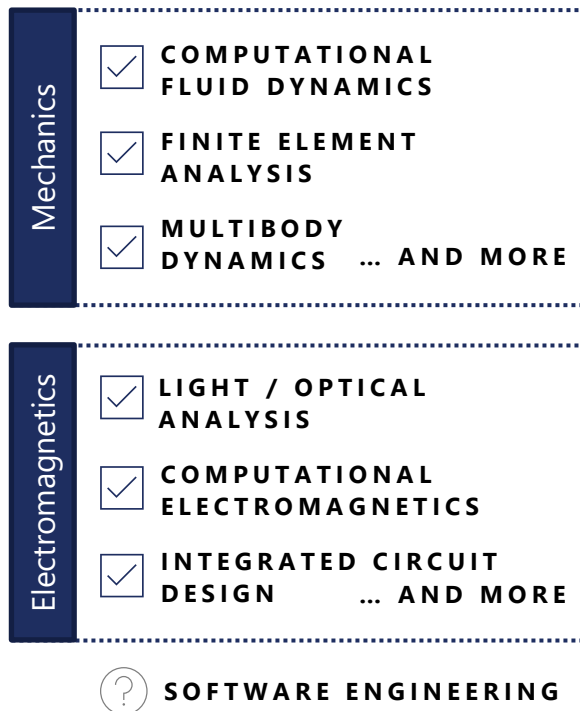

Engineering Tools Continue to Evolve

Horizontal Tools are Being Supplanted by Vertically Integrated Solutions
Built Upon Deep Product / System-level Know-how

MADISON PARK GROUP

Legacy engineering software tools took a horizontal, "one-size-fits-all" approach, generally positioning around and specializing in a siloed domain of physical analysis

Modern engineering software tools are increasingly multi-domain, leveraging vertically-oriented CAD / CAE / PLM platforms to address design complexities and Digital Twins for ongoing operations

... AND MORE

Market of Interest: Next-Generation Mobility

Autonomy and Electrification Demands Incubating New Class of Software Tools Purpose-built for Next-Generation Mobility

MADISON PARK GROUP

Electrification

Ansys R1 2022 platform to feature MotorCAD upgrades

Ansys continues to invest in EV market via electric motor design CAD partner

Mar 2022

Gamma acquires Exothermia

Acquisition introduces emissions impact as a key parameter for powertrain design & simulation

Nov 2021

Gamma acquires PDT

Acquisition extends EV development software portfolio with power converter design capabilities

Jul 2021

- Stricter global emissions targets, increasing urban populations, improvements in charging infrastructure, and declining battery costs are rapidly encouraging significant adoption of EVs
- Driving nearly lofty production goals expected to exceed \$300 billion over the next decade
- Engineering software tools previously used for internal combustion engine (ICE) vehicle development are largely unequipped for electro-mechanical physics environments

Autonomy

Apex.AI raises \$56.5m

AV safety operations management platform raises Series B led by major auto OEMs

Dec 2021

Applied Intuition raises \$175m Series D

AV performance simulation software platform brings total funding to +\$350m within five years of founding

Nov 2021

Ansys acquires Zemax for ~\$400m

Extends Ansys' optical simulation software portfolio with light simulation capabilities for LIDAR system development

Oct 2021

- Autonomous mobility beginning to see commercial adoption in the form of automobiles enabled with advanced driver-assistance systems (ADAS)
- Many automakers are working towards achieving Level 4 autonomy, where the vehicle can drive itself under certain conditions only, over the next few years
- Given the unique complexities of this multi-disciplinary product system, AV engineers are using increasingly more tools across the entire value chain, from computer vision / sensing to safety & reliability and more, and this will likely expand as autonomy continues to proliferate across different modes of mobility

Unique pain-points requiring specialized software capabilities for the mobility market

DRIVETRAIN ELECTRIFICATION

New Technology Paradigms are Emerging

MADISON PARK GROUP

Low-code / No-code Seeing Broad Applicability in Industrial Operations

Aras Announces Significant Growth Investment by GI Partners

"Investment further Accelerates low-code platform innovation, global expansion and customer success"

UK AI Engineering Software Company, Monolith AI Raises £8.5m in Series A Funding

"Monolith AI's mission is to build an intuitive coding free software that empowers every engineer to understand, predict, and optimize products dramatically faster using artificial intelligence algorithms"

Siemens to Acquire Mendix

"Accelerates and extends Mendix' leadership in low-code by doubling down on R&D investments and geographical expansion"

Tulip Interfaces Announces \$100M Series C at +\$1b Valuation

"Tulip's Frontline Operations platform provides a cloud-based, no-code platform with native edge capabilities that connects the people, machines, devices, and systems used in the operations of a variety of frontline industries"

- Recent acquisitions, fundraises, and product launches support a growing adoption of low-code / no-code technology for industrial applications
- Low-code / no-code technology offers significant benefits in democratizing software applications across the business that were once generally reserved for highly technical users, as well as increasing integration flexibility into a broader ecosystem
- These particular examples demonstrate low-code / no-code technology's broad applicability for the industrial ecosystem, including in product lifecycle management (Aras), engineering simulation & analysis (Monolith), IIoT (Mendix), and shop floor empowerment (Tulip)

Provider of software and cloud solutions in the areas of product development, high performance computing (HPC), and data analytics

TTM January 2022 Market Pricing

M&A Continues to Be Core to Growth Strategy

« Recent acquisitions aim to converge domain expertise with advanced analysis technology

- In [February 2022](#), Altair announced the acquisition of Cassini Systems, a unified cloud product lifecycle management (PLM) platform, for an undisclosed amount
 - With the acquisition of Cassini, Altair adds a foundational PLM technology to solidify its footing in the development of digital thread solutions that span the Altair CAE portfolio
- In [December 2021](#), Altair announced the acquisition of World Programming, a provider of data analytics software allowing clients to easily perform analysis on their data which may be specific to the domains or company processes
 - With the integration of World Programming's technology, Altair sees an opportunity to help firms with the transition to hybrid architectures using modern, open technologies and languages
 - The technology's open-source approach to data manipulation and analytics has potential to not only expand Altair's capacity for advanced engineering simulation but also expand its footprint in non-core verticals such financial services and insurance
- In [August 2021](#), Altair announced the acquisition of S-FRAME Software, a provider of structural analysis and design software, for an undisclosed amount
 - With the addition of S-FRAME, Altair enhances its global capabilities for the architecture, engineering, and construction (AEC) market in analyzing structural ability to withstand external loads like wind, water, and snow, and meet design code requirements
- In [February 2021](#), Altair announced the acquisition of GE Aviation's Flow Simulator assets, an integrated flow, heat transfer, and combustion design software, for an undisclosed amount
 - Altair's ownership will make the Flow Simulator software available to a broader customer base beyond aviation into markets like automotive, electromobility, battery, defense, and renewable energy
 - The acquisition also includes a memo of understanding (MOU), establishing a long-term strategic partnership between Altair and GE Aviation which will facilitate an increased level of collaboration between the two companies

Altium

Business Overview

(\$ in millions)

Headquarters:	La Jolla, CA

PCB Leader Rejects Premium Takeover Bid Amidst Flatlining Sales

« Altium rejects \$3.9b takeover bid From Autodesk

- In [June 2021](#), Altium rejected a \$3.9b takeover bid from Autodesk
 - Autodesk's offer of \$38.50 AUD per share represented a 41% premium to Altium's previous closing price
 - At a AUD \$5.1 billion (\$3.9 billion) valuation, the offer valued Altium at ~17x forecasted 2022 sales and ~44x forecasted 2022 earnings
 - Altium rejected the bid, citing that the offer "significantly undervalued" the company
 - CEO Aram Mirkazemi, whose material individual ownership in the company (~5%) made him an even more significant stakeholder in the decision, commented that other companies had expressed an interest in buying Altium, but reiterated that the company is "not for sale"

« Product strategy focused on integration of PCB design, manufacturing, and supply chain

- In [January 2022](#), Altium announced the release of Altium Designer 22
 - The new release of Altium's core PCB design platform includes added features to help designers source component availability, enhanced capabilities that reduce manual design tasks, and advanced real-time lifecycle management tools used in conjunction with Altium 365
- In [April 2021](#), Altium announced the launch of Nexar, a cloud-based partner platform aimed at building a connected ecosystem of design, supply chain, and manufacturing stakeholders to transform the engineering of smart and connected products
 - Partners can leverage Nexar's open API to integrate with Altium 365 and Altium NEXUS, present reliable up-to-date component data from the Octopart search engine, and embed ready-to-use "embeds" such as the Altium 365 ECAD viewer on web pages or within an application

2021 M&A Activity Builds Upon Recent Acquisitions

« Recent acquisitions support initiatives towards simulation of multi-disciplinary products

- In [August 2021](#), Ansys announced it entered into a definitive agreement to acquire Zemax, an optical imaging system simulation, for \$399.1m
 - The acquisition will expand Ansys' portfolio to provide comprehensive, end-to-end solutions for simulating sophisticated optical- and photonics-enabled products
 - Zemax immediately augments Ansys' solutions geared towards the development of embedded optical system products across verticals such as robotic surgery-assist systems, autonomous vehicles, machine vision cameras, and A&D applications
 - The acquisition marks the third major acquisition Ansys has made in recent years in adding specific capabilities in optical and photonic-related simulation, following 2021's acquisition of Lumerical and 2018's acquisition of Optis World
 - Zemax was previously owned by major global private equity firm EQT Partners
- In [May 2021](#), Ansys announced the acquisition of Phoenix Integration, provider of software that enables model-based engineering and model-based systems engineering, for an undisclosed amount
 - This acquisition expands the scope of Ansys' solution offering, enabling users to connect to a range of engineering tools together in multi-tool workflows for broad and robust model-based engineering
 - The acquisition complements Ansys' recent acquisition of Dynardo GmbH in the process integration and design optimization space as well as Analytical Graphics, Inc., a long-time partner of Phoenix Integration's, in the aerospace & defense space

Aras

Business Overview

(\$ in millions)

Headquarters:	Andover, MA

New Ownership Catalyzes New Regime at Aras

« Acquisition adds critical domain expertise in high-growth technology verticals

- In [January 2022](#), Aras announced the acquisition of Minerva Group, a value added reseller and implementation provider of product lifecycle management (PLM) software solutions, for an undisclosed amount
 - The acquisition brings extensive vertical industry expertise in medical devices and high-tech electronics, two of the strongest verticals for PTC's recently acquired Arena Solutions platform
 - Minerva has long been Aras' leading implementation partner for the Aras Innovator PLM platform
 - The acquisition marks Aras' first in over three years

« Aras takes on majority institutional investor

- In [April 2021](#), Aras was acquired by software-focused private equity firm GI Partners, for an undisclosed amount
 - This significant growth investment will accelerate Aras' low-code platform innovation and help further expand Aras' global footprint
 - The majority investment comes within only two and a half years of Aras' most recent growth fundraising, a \$70m Series D led by Goldman Sachs at a reported \$450m pre-money valuation

« New leadership in-place with deep industrial software pedigree

- In [October 2021](#), Aras announced Roque Martin as new Chief Executive Officer
 - Martin joins Aras from PTC, where he most recently served as SVP & General Manager of the Systems & Software Engineering business unit
 - Prior to PTC, Martin spent over 25 years at IBM in a variety of business unit management roles, most recently as the GM for IBM's Emptoris Strategic Supply Management Solutions unit
 - Martin succeeds the founder of Aras, Peter Schroer, who will continue to be actively engaged with Aras as a member of the Board of Directors

Autodesk

Business Overview

Autodesk Ramps Growth Across its Full Portfolio

« Autodesk accelerates acquisition activity across a range of key business units

- In [December 2021](#), Autodesk announced the acquisition of ProEst, a cloud-based cost estimating solution for the construction industry, for an undisclosed amount
 - Autodesk plans to integrate ProEst with Autodesk Construction Cloud, strengthening Autodesk's preconstruction offerings, allowing users to manage all their critical workflows on one platform
- In [November 2021](#), Autodesk announced the acquisition of Tangent Labs, a cloud-based production software pipeline tool, for an undisclosed amount
 - With the incorporation of cloud-based workflows, Autodesk can support artists, producers, and supervisors to work more efficiently and scale with the pace of production
- In [May 2021](#), Autodesk announced the acquisition of Upchain, provider of cloud-based product lifecycle management (PLM) and product data management (PDM) solutions, for \$139.8m
 - Upchain offers a differentiated data experience that bridges gaps in data and process management workflows, accelerating Autodesk's mission to remove collaboration barriers and increase efficiency for customers
- In [February 2021](#), Autodesk announced it entered into a definitive agreement to acquire Innovyze, provider of water infrastructure modeling and simulation software, for \$1.0b
 - The acquisition puts Autodesk in a position to offer end-to-end water infrastructure solutions, paving the way for a more sustainable and digitized water industry

« Transformative acquisition bid for PCB leader falls through

- In [July 2021](#), Autodesk announced the termination of discussions to acquire Altium
 - At a AUD \$5.1 billion (\$3.9 billion) valuation, the offer valued Altium at ~17x forecasted 2022 sales and ~44x forecasted 2022 earnings
 - Autodesk's offer of \$38.50 AUD per share represented a 41% premium to Altium's previous closing price
 - Altium rejected the bid, citing that the offer "significantly undervalued" the company

Bentley Systems

Business Overview

(\$ in millions)

Headquarters:	Exton, PA

Total Acquisitions:	40
Enterprise Value (EV):	\$13,631.8
TTM Revenue:	\$913.0
TTM EBITDA:	\$178.7
EV / TTM Revenue:	14.93x
EV / TTM EBITDA:	76.3x

Description:

Software solutions for engineers, architects, geospatial professionals, constructors and owner-operators for the design, construction, and operations of infrastructure

TTM January 2022 Market Pricing

Post-IPO M&A Spree Continues

« Record M&A year totals nearly \$2 billion in acquisitions

- In [November 2021](#), Bentley announced it entered into an agreement to acquire Power Line Systems, provider of electric power transmission engineering software, for \$725.0m
 - The acquisition will complete the reach of Bentley systems' comprehensive portfolio for the lifecycle integration of grid infrastructure across electrical transmission, substation, distribution assets and communications towers
 - Bentley noted that the acquisition adds approximately "\$30 million in subscription revenue"
- In [September 2021](#), Bentley announced its Seequent business unit acquired Minalytix, developer of MX deposit, for \$8.0m
 - The acquisition enhances Seequent's cloud capabilities and solutions for mining
 - Prior to the acquisition, Seequent held a minority shareholding in Minalytix, including exclusive global rights to sell MX deposit
- In [August 2021](#), Bentley announced its Seequent business unit acquired Imago, developer of cloud-based software for the capture and management of geoscientific imagery, for an undisclosed amount
 - The acquisition enhances Seequent's cloud capabilities, helping geoscientists and engineers solve earth, environment, and energy challenges
- In [June 2021](#), Bentley announced the completion of its acquisition of Seequent, developer of 3D geological modeling and visual data software, for \$1.05b
 - The \$1.05b purchase price consisted of \$900m in cash as well as 3.1 million of Class B shares
 - The acquisition values Seequent at approximately 12.65x revenue based on Bentley's guidance that the "acquisition of Seequent is expected to initially add approximately 10% to each of Bentley Systems' key financial metrics (ARR, annual revenue, and EBITDA)"
 - Bentley believes that the integration of its solutions with Seequent can create deeper infrastructure digital twins, marrying physical and geological infrastructure and making it possible for infrastructure digital twins to reach full subsurface depths, augmenting environmental resilience against flood, seismic, climate, and water security threats
 - Strategically, Bentley expects the acquisition to contribute to building a "multiplied ESG handprint" to improve the world's environment while improving the world's economies

Cadence Design

Business Overview

(\$ in millions)

Description:

Electronic design automation (EDA) tools, IP portfolio for chip designs, and comprehensive suite of verification tools and hardware to verify the chip, package, board, and design

TTM January 2022 Market Pricing

EDA Leader Exploring Market Growth Avenues

« Recent acquisitions expand Cadence's footprint in CAE solutions

- In [April 2021](#), Cadence announced the acquisition of Pointwise, developer of mesh generation software with focus on computational fluid dynamics applications, for \$31.4m
 - The acquisition incorporates Pointwise's mesh generation software and builds further upon its recent NUMECA acquisition, further enhancing Cadence's already established multi-physics product simulation capabilities
- In [February 2021](#), Cadence announced the completion of its acquisition of NUMECA International, developer of computational fluid dynamics software, for \$229.1m
 - The acquisition helps broaden both Cadence's CFD solutions and system analysis capabilities
 - Cadence sees these added CFD capabilities as being highly complementary with existing capabilities in electromagnetic simulation and integrated circuit design in providing holistic simulation & design solutions for multi-physics electronics-oriented systems

« Leadership transition in-place

- In [July 2021](#), Cadence announced Anirudh Devgan would transition into the CEO role on December 15, 2021
 - Current CEO, Lip-Bu Tan will transition to executive chairman once Devgan takes over
 - Devgan will assume the role of president and CEO of Cadence

Dassault Systemes

Business Overview

Dassault Stays Quiet Following Transformative Medidata Deal

« 2021 acquisitions expand Centric PLM business and foundational technology capabilities

- In [November 2021](#), Dassault Systemes' Centric PLM business unit acquired Armonica Retail, an end-to-end retail planning software solution, for an undisclosed amount
 - Armonica's operational capabilities in merchandise financial planning, range planning, assortment planning and buying, store allocation and replenishment, forecasting and vendor replenishment, and wholesale planning / forecasting complement Centric's core capabilities in retail product design, development, and supply chain management
 - The acquisition enables Dassault / Centric's retail, fashion, and apparel customers to orchestrate an integrated process for planning to development to delivery to omni-channel sales
- In [July 2021](#), Dassault Systemes acquired Iterop, provider of business process management software, for an undisclosed amount
 - Iterop focuses on optimizing and automating business process by leveraging BPMN 2.0 standards
 - The acquisition follows Dassault's 2020 acquisition of NuoDB, a cloud-native distributed SQL database leader, in adding foundational technology capabilities applicable across Dassault's vast solution portfolio
 - These acquisitions take Dassault away from what has traditional been their core business of PLM, CAD and simulation

« Dassault Launches SOLIDWORKS 2022

- In [September 2021](#), Dassault Systemes released *SOLIDWORKS 2022*, the latest addition to the Company's 3D design and engineering application portfolio
 - SOLIDWORKS 2022* provides hundreds of new enhancements that foster innovation and streamline the product development process from concept to manufacturing
 - The performance improvements were inspired by the existing community of users, allowing for innovators to create better quality products with increased speed and efficiency

European CAE Leader Focused on Organic Growth Initiatives

« Long-term planning focused around financial objectives

- In [October 2021](#), ESI Group announced its 3-year strategic plan *OneESI 2024 – Focus to Grow*
 - Acknowledging in the announcement that the company's profit and growth are below industry benchmarks set by peers in the engineering software space, the company's 3-year plan is focused on driving high single digit revenue growth and an adjusted EBIT margin expansion beyond 20%
 - ESI management believes that in order to execute on this goal, the company "must focus on its core business to invest to win in key simulation markets" and "must globalize its distribution to serve global customers, including a globally coordinated value packaging & pricing strategy"

« New sales leadership put in-place to stimulate go-to-market reinvigoration

- In [September 2021](#), ESI Group appointed Francis Griffiths as new Executive Vice President of Sales
 - Griffiths joins ESI Group from National Instruments, a producer of automated test equipment and virtual instrumentation software, where he served for 29 years in a variety of roles including European VP of Sales and SVP of Global Sales, Field Marketing, and Operations

« No acquisitions in 2021

- ESI Group did not complete any acquisitions in 2021
- The company's most recent M&A activity came in 2017 with the acquisition of Scilab Enterprises, an open source software platform for analytical numerical solutions

Gamma Technologies

CAE Leader Ramps Up Acquisition Activity and Adds New Investor

« Acquisitions focused around electrification

- In [November 2021](#), Gamma Technologies announced the acquisition of Exothermia, developer of predictive thermo-electro-chemical solutions for zero-impact emissions technologies, for an undisclosed amount
 - The acquisition extends Gamma's existing vehicle simulation-oriented portfolio in adding capabilities to power the development of next generation "ultra-clean" vehicle architecture systems focused on high efficiencies, decarbonization, and zero emissions
- In [July 2021](#), Gamma Technologies announced the acquisition of Power Design Technologies, makers of PowerForge, a power converter design software, for an undisclosed amount
 - PowerForge extends efficient power converter design across various industries including aerospace, automotive and power generation early in the product development cycle
 - The addition of PowerForge strengthens Gamma Technologies' product suite, continuing the transition toward an electrified future

« Insight Partners joins the party

- In [February 2022](#), Gamma Technologies announced a strategic growth investment from Insight Partners of an undisclosed amount
 - The investment will further accelerate Gamma Technologies' strategic initiatives in technology research, product development, and market expansion within the software simulation space
 - Insight joins existing investor Cove Hill as a "significant minority" shareholder, while existing investor TA Associates, who made a significant new investment as part of the transaction, retains the largest shareholding

Infor EAM Acquisition Marks Major Growth Investment

« Acquisitions augment capabilities across Manufacturing Intelligence portfolio

- In [October 2021](#), Hexagon announced the completion of its acquisition of Infor's Enterprise Asset Management (EAM) business, for \$2.75b
 - Infor EAM is a SaaS-based asset management solution that digitalizes maintenance operations and tracks assets, enabling optimum operational efficiency
 - The \$2.75b consideration consists of \$792m in cash and the remainder paid in 132.6m Series B shares issued to Infor, amounting to ~4.9% equity ownership and ~3.6% voting shares in Hexagon
 - With an expected 2021 revenue of \$184m, the acquisition values Infor's EAM business at nearly 15x expected revenues
- In [September 2021](#), Hexagon announced the acquisition of Jovix, developer of material tracking software for the construction industry, for an undisclosed amount
 - Jovix provides both transparency and traceability into the status and location of materials throughout the engineering, procurement, and construction (EPC) lifecycle
- In [July 2021](#), Hexagon announced the acquisition of Immersal, developer of spatial mapping and visual positioning tool intended to enhance Augmented Reality (AR) infrastructure and applications, for an undisclosed amount
 - Hexagon inherits Immersal's experience developing AI and machine learning-based spatial anchor technology, further expanding its AR application capabilities
- In [April 2021](#), Hexagon announced the acquisition of CADLM SAS, an engineering design software platform utilizing simulation in product development processes and lifecycles, for an undisclosed amount
 - CADLM's *ODYSSEE* software platform takes real-world sensor data and physics-based simulation data, applies AI and machine learning, resulting in enhanced accuracy for predictive models of a product at efficient computing power levels
 - CADLM will operate as part of Hexagon's Manufacturing Intelligence division

PTC Re-orientes for SaaS Following Recent Acquisitions

« Organic product and sales initiatives center around SaaS offerings

- In [September 2021](#), to meet growing demand, PTC announced the expansion of Arena product life management (PLM) in Europe, increasing the product's global footprint
 - Since PTC's acquisition of Arena Solutions, Arena PLM has seen rapid growth and significant increase in demand
 - To keep up with the adoption of SaaS solutions, Arena now offers EMEA customers cloud-based software systems hosted in Europe
- In [April 2021](#), PTC announced the expansion of its PTC Atlas™ SaaS platform with the addition of two new product extensions, Vuforia Expert Capture and Creo Generative Design Extension
 - The extensions provide richer-featured products and propel PTC's time-to-market above industry-standard statistics
 - PTC's Atlas platform was formed through the 2019 acquisition of Onshape, a native-cloud 3D CAD software platform
- In [January 2021](#), PTC announced the completion of its acquisition of Arena Solutions, a SaaS product lifecycle management (PLM) solution
 - Together, the combine company will provide a pure SaaS CAD and PLM solution, capturing the accelerating shift toward software for product design, development, and realization

New Engineering & Manufacturing Portfolio Comes to Market

« New platform completes nearly ten acquisitions in debut year

- In [June 2021](#), TA Associates purchased AutoQuotes, a CPQ (configure, price, quote) and product design analytics software platform, ultimately forming a new cloud-based platform for manufacturers called Revalize
 - In the following months, TA executed nearly ten add-on acquisitions to the platform, forming a global portfolio of software solutions addressing critical pain-points in design, engineering, manufacturing, and sales for vertically-oriented product manufacturers across a range of end verticals
- In [November 2021](#), Revalize announced the acquisition of three European Software companies, Procad Group, SpecPage, and Tenado
 - Procad Group** is a developer of a product and document lifecycle management platform designed to digitalize business processes in product development and management
 - SpecPage** is a developer of PLM and quality assurance solutions for recipe-based, process manufacturers
 - Tenado** provider of computer-aided design (CAD) software solutions for the metal and wood fabrication trades, mechanical engineering, fire protection and traffic management sectors
- In [November 2021](#), Revalize announced the acquisition of Sofon, provider of Guided Selling and CPQ software solutions
 - The acquisition further strengthens Revalize's CPQ and revenue operations solutions for manufactured products
- In [August 2021](#), Revalize announced the acquisition of four companies that extends the reach of the Company's solution portfolio and increases their global customer base to 9,000+ users
 - Attainia** a medical equipment planning solution, connecting hospitals, suppliers, consultants, and group purchasing organizations (GPOs) with a catalog that includes over 70,000 medical devices and healthcare equipment
 - BCA Technologies** a platform connecting building product manufacturers to the architecture, engineering, and construction (AEC) value chain
 - LeadMethod** a lead management solution that strengthens distributor engagement
 - MicroD** is a platform with eCommerce, CPQ, and visualization capabilities, that connects home furnishing manufacturers with distribution channels

Diversified Engineering Leader Invests Across Market Segments

« Acquisition activity highlighted by Supplyframe deal

- In [October 2021](#), Siemens announced the completion of its acquisition of French startup Wattsense, a developer of IoT management software solutions designed to control and monitor small and mid-size buildings, for an undisclosed amount
 - The acquisition allows Siemens to expand its building automation offering, reducing energy use and increasing the adoption of IoT management solutions
- In [June 2021](#), Siemens announced the acquisition of Nextflow Software, developer of computational fluid dynamics (CFD) simulation software, for an undisclosed amount
 - The acquisition of Nextflow expands the Simcenter software portfolio with rapid meshless CFD capabilities to accelerate the analysis of complex transient applications in the automotive, aerospace, and marine industries such as gear box lubrication, tank sloshing, or electric motor spray cooling
- In [May 2021](#), Siemens announced it signed an agreement to acquire Supplyframe, provider of Design-to-Source Intelligence (DSI) for the global electronics value chain, for \$700.0m
 - The integration of Siemens EDA and PCB portfolio with Supplyframe's marketplace intelligence will help customers reduce costs, increase agility, and make highly informed decisions relating to electronics-oriented manufacturing
 - Supplyframe's ecosystem touches over 10 million engineering and supply chain professionals worldwide, transforming how businesses design, source, market, and sell product in the global electronics value chain
 - Prior to the acquisition, Supplyframe's SaaS offerings had been growing at a ~40% CAGR in recent years

EDA Leader Maintains Core Focus

« Acquisitions round out capabilities in semiconductor design and simulation lifecycle

- In [November 2021](#), Synopsys announced the acquisition of Concertio, provider AI-powered performance optimization software, for an undisclosed amount
 - The acquisition further enhances Synopsys' SiliconMAX™ Silicon Lifecycle Management (SLM) platform, helping maximize all aspects of silicon performance across the entire lifecycle
- In [September 2021](#), Synopsys announced the completion of its acquisition of the semiconductor and flat panel display solutions from BISTel, for an undisclosed amount
 - The acquisition combines Synopsys' machine learning, big data management and semiconductor process simulation with BISTel's technology and products
- In [June 2021](#), Synopsys announced the acquisition of Code Dx, provider of security risk management solution that automates and accelerates the discovery, prioritization, and remediation of software vulnerabilities, for an undisclosed amount
 - With the addition of Code DX, Synopsys can now deliver consolidated risk reporting and prioritization across correlated software vulnerability data produced by Synopsys solutions
- In [May 2021](#), Synopsys announced the completion of its acquisition of MorethenIP, provider of Ethernet Digital Controller IP supporting data rates from 10G to 800G, for an undisclosed amount
 - The acquisition enables Synopsys to provide users with a complete low-latency, high-performance Ethernet IP solution for networking, AI, and cloud computing SoCs through the expansion of its DesignWare Ethernet Controller IP portfolio

About Us

Growth Stage

FOCUSED ON TRANSACTIONS WITH \$100-500 MILLION ENTERPRISE VALUE

200+

COMPLETED TRANSACTIONS

\$30+

BILLION IN DEAL VALUE

~30%

CROSS-BORDER DEALS ⁽¹⁾

40%+

SPONSOR-BACKED CLIENTS

30%+

REPEAT CLIENTS ⁽²⁾

20

DEDICATED ADVISORS

Our Deep Sector Expertise Drives Better Outcomes ⁽¹⁾

(1) Select deals completed in the last ten years
(2) Calculated as total clients divided by clients completing more than one transaction with MPG over client relationship, inclusive of investor relationships

FOCUS

We partner with global technology clients across North America and Europe

EXPERTISE

We specialize in impacting growth strategies to optimize shareholder value creation

STRATEGY

We marry thoughtful corporate strategy planning with stalwart transactional execution

RESOURCES

Domain experts with active relationships across +1,500 investors

Senior Leadership Team

20+ Years Average Investment Banking & Technology Advisory Experience
